

Field Telephone

HS-FT240

Main Features

- 2-wire connection
- Local Battery (LB)
- Waterproof structure
- Shock proof

General Description

This electronic telephone can replace of the traditional magnetic telephone. It is specially used for the wire communication and the communication long distance. It has the advantages of clear in voice, stability in operation and good compatibility performance.

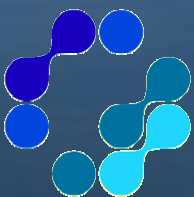

Main Functions

- Waterproof sealed structure.
- Anti-shock conditions.
- Communication distance up to 21 kilometers
- Transmitting and receiving ring, dialing and voice communication

Specifications

Operation temperature: - 40°C ~ 50°C
Reference dimension: 50mm×110mm×240mm
Weight: ≤1.55kg
Power Voltage: 4.5V (3 pieces of dry batteries)
Tx ring frequency: 16Hz~30Hz
Rx Sound level: ≥70dB (A)
Amplitude: ≥55V (3kΩ load)
Tx ring duration time: 1s~2s

Part No. : SHSFT240-000

C-Audio
Clear Voice Solutions
